INVITATION

European Coal Days 2010

8 – 12 November

European Parliament

EURACOAL is the European Association for Coal and Lignite, representing 33 Members from 20 countries and including national producers and importers associations, companies and research institutes.

EURACOAL's objective is to highlight the importance of coal for security of energy supply within the enlarged EU and to contribute to an appropriate and reliable framework for sustainable and environmentally friendly coal extraction and utilisation in Europe.

EURACOAL

European Association for Coal and Lignite
